

Glenn King

Chief Operating Officer

Meet Glenn King, the world's only Certified High Performance Human Centrifuge Test Pilot.

Mr. King fulfills several roles at the NASTARSM Center; primarily, as Chief Operating Officer. Mr. King is an FAA-rated private pilot holding both single & multiengine instrument ratings with over 3,800 hours flying experience, and over 250 hours in fast jets. Mr. King served in the US Army as a Special Forces HALO Instructor, with a tour of duty in Africa. Mr. King is an active skydiving instructor and has accumulated over 12,000 jumps in his career.

His vision and determination will develop the NASTARSM Center into the world's premier civil aviation training facility. His leadership in the flight training industry has led to the development of ETC's FAA-approved flight training devices.
